EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 21-26 (drawn to an invention non-elected without traverse).

2. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests the claimed invention. While Govindaraju et al. (US 5,515,455 A) teaches partitioning handwritten words into segments and ordering the segments, Govindaraju et al. fails to teach partitioning first and second writing strokes and ordering the segments from these different strokes, as stipulated in claim 1 or ordering writing strokes, as stipulated in claim 27. Nishida decomposes strokes into primitives, but fails to teach that these primitives are ordered based upon spatial relationships between the primitives, as required by the claimed invention. Finally, while Fujisaki et al. orders writing strokes, Fujisaki et al. fails to teach that the strokes can be partitioned into segments or that such segments can be ordered, as variously claimed. Because none of the prior art teaches or suggests partitioning writing strokes into segments or ordering the segments based on spatial relationships between the segments, the claimed invention is allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-20 and 27-41 (now renumbered for issue as 1-20 and 21-35, respectively) are allowed.
